About Me

Intend to shape up my career with a well challenging and rewarding position in an esteemed organization, which will enable me to utilize my skills & abilities to help me evolve in both professional and personal life

Experience

Freelance Projects - (Present)

Android Developer

I have been working as a freelance Android Developer since January 2022, developing mobile applications tailored to the needs of various clients. One of my notable projects was creating an attendance management app for my college, which involved designing, coding, and testing the app to ensure it met the requirements. I collaborated closely with clients to understand their needs and provided solutions that improved their workflow.

Education

Diploma in Computer Engineering 93%

2022 - 2024

Swami Vivekanand Institute of Polytechnic
- Latur

B.TECH in Computer Science Engineering (AIML) - (Present S.Y)

2024 - 2027

Expertise

- Android Developer, Java
- Wordpress
- Graphics Design
- UI/UX
- Programming Languages -
Java , C , C++ , Python
etc.

Skills

I am experienced in Java for hybrid Android Applications Development (1 internship at UEF pvt).

I have worked on technologies like (HTML5, Javascript, Bootstrap , CSS3 and other JS libraries) for almost a year and had done several projects.

Skillful in Java + Data structures and Algorithms along with C , C++ and much more.

Aspiring for a challenging career in Software Development as to use my learned skills and experience for best results.

Projects

Title: Attendance Management System

I recently developed an Android app for Attendance Management as my final year project for my college, it was basically designed to record and save attendance of students and to download study materials, I used Firebase as Database in my project to avoid complexities and to provide smooth app experience along with best UI controls to my College faculty.
